

## About The Teacher Pages

New this year, the Stoddert website features webpages for all teachers and classrooms (<http://www.stoddert.org/teacher-pages/>). The pages are intended to help teachers communicate with students and parents about the classroom. The pages can be a main hub of information for the classroom and a place that parents can go for information. The pages can help teachers communicate their message and distribute information to their parents.

Use of the page is purely optional, but strongly encouraged. The goal is to streamline communication between teachers and parents. Room parents will also be instructed on how to use the page, so that the pages can be maintained and updated by both the teacher and room parents.

The teacher pages are specific to each classroom and can be used and developed in a way that works for each classroom. Currently, the pages house classroom supply lists. The pages could include things such as:

- Classroom newsletters
- Updates & announcements
- Letters from the teacher / welcome message
- Meet the teacher information
- Teacher mission & goals for the classroom
- List of weekly specials
- Daily schedule
- Important dates for the whole year
- Upcoming events specific to the classroom
- Homework assignments
- Parent-Teacher conference sign up sheets and information
- Educational resources, links to suggested reading or websites
- Room parent contact information
- And so much more!

If you wish to have access to update and maintain your classroom page, please contact the Stoddert PTO communications committee at [communications@stoddert.org](mailto:communications@stoddert.org) and we will get you set up with login information.

If you have any questions about the pages, or don't see your classroom listed, please contact the communications committee.
